

### Application

AGRI-TEC ALL-SEASON GREASE can be used year-round across multiple applications within the construction, industrial, automotive and agricultural industries.

### CUSTOMER BENEFITS

- High shock load protection
- High load-carrying protection
- High corrosion and rust protection
- High water resistance
- Extended service lubrication

### FEATURES

AGRI-TEC ALL-SEASON GREASE is a smooth-textured, dark amber, multi-purpose grease intended for use in centralized lubrication systems serving plain and anti-friction bearings. Because of its EP characteristics, it is well suited for the lubrication of bearings subjected to shock loads or continuous operation under extreme pressure conditions.

A well refined base oil, reinforced with rust, oxidation and extreme pressure additives, coupled with a high-quality lithium stearate soap, creates a product well-equipped to provide excellent service in a wide variety of applications.

*Values are typical and may vary within normal production ranges.*

Soap Type	Lithium 12 OH Stearate
N.L.G.I. Grade	1
Color	Dark Amber
Timken OK Load, Lbs.	40
Dropping Point, °F	325
Texture	Smooth
Oxidation 100 hrs. PSI Loss	5
Visc. Base Oil, 100°C Cts.	15
Flash Point, °F	400
Pour Point, °F	10
