

Application

AGRI-TEC ANTIFREEZE is a premium quality engine coolant that offers all-season protection for your heavy duty engine.

Meets Specifications

- IMC of ATA RP-302A
- Mack Truck 014GS 17004
- U.S. Government Specification A-A 870A
- General Motors GM 6038M, GM 1899M, GM 1825
- American Association of MVA
- Detroit Diesel Allison
- ASTM D-3306
- Cummins 85T8-2
- SAE J1034
- Freightliner, PACCAR

CUSTOMER BENEFITS

- **Superior Performance** – AGRI-TEC ANTIFREEZE features an inhibitor package designed to assure anti-foaming properties as well as provide rust and corrosion protection for brass, copper, solder and aluminum.
- **Cost Effective** – This premium quality coolant is tolerant to contamination and its use eliminates the need for supplemental cooling additives to save time and money.
- **All Weather Service** – Your engine is protected in the most severe operating conditions from high heat to extreme cold temperatures.

FEATURES

AGRI-TEC ANTIFREEZE is a premium quality coolant and antifreeze offering all-season protection of your heavy duty engine. It offers long-term corrosion protection for aluminum, cast iron, brass, steel and copper components and contains fewer abrasive solids to reduce water pump seal wear and extend the life of your water pump.

This product is compatible with all major anti-freezes. A 50% concentration by volume of Agri-Tec Anti-Freeze is recommended for maximum inhibitor protection. The minimum recommended concentration for effective corrosion protection is 33% by volume.

Values are typical and may vary within normal production ranges.

Physical Characteristics	
Color	Green
Odor	None
Solubility in Water	Complete
Specific Gravity@60°F	1.1280 - 1.1310
Viscosity Index	120
Sulfated Ash, % Wgt.	1.17
Total Base Number (TBN)	12
