

### Application

AGRI-TEC MOLY-LITH GREASE has gained wide acceptance in construction, industrial, automotive and agricultural applications. This product is not recommended for use in disc brake wheel bearing applications.

### CUSTOMER BENEFITS

- High shock load protection
- High load-carrying protection
- High corrosion and rust protection
- High water resistance
- Extended service lubrication

### FEATURES

AGRI-TEC MOLY-LITH GREASE is a smooth textured, dark gray lubricant designed to combine the advantages of premium quality lithium 12 hydroxystearate thickener and the extreme pressure and anti-gelling capabilities of molybdenum disulfide (Moly). Fortified with rust and oxidation inhibitors and blended with a well refined base oil, AGRI-TEC MOLY-LITH GREASE delivers excellent water resistance and washout properties. Good high temperature stability and long storage life are also inherent.
